# Introduction

This manual includes program information, application forms, exhibits, certifications and assurances, and instructions to enable an applicant to apply for Federal Operating Assistance and/or Capital Assistance under U.S.C. Section 5311 Non-Urbanized Area Formula Program, as administered by the Florida Department of Transportation (FDOT).

The Section 5311 Non-Urbanized Area Formula Program provides Federal operating or capital assistance to eligible recipients (see next page) who operate/contract public transportation service in non-urbanized areas. As used in this manual, the terms “non-urbanized areas” and “rural” are used synonymously to mean any area outside an urbanized area, as designated by the Bureau of the Census.

Eligible recipients may receive annual Section 5311 allocations to offset operational expenses of public transportation service operated/contracted in non-urbanized areas. However, such recipients may elect to use all or part of their annual allocation to buy vehicles or equipment (capital) instead. Capital equipment purchased must be necessary and reasonable to the provision of public transportation services in non-urbanized areas.

The sections of this manual pertaining to general information, Exhibits, and the Appendix apply to all applicants. In the “Contents of Applications” section, Part A applies to all applicants; Part B applies to new applicants for operating assistance; and Part C applies to all applicants for capital assistance. All applications must be “stand-alone”; that is, separate from any Section 5310 and/or Section 5311(f) application the applicant may also be submitting to FDOT. Applicants may apply for Section 5311 Operating Assistance, Capital Assistance, or both, within one application. However, in preparing the application, the applicant may have to use forms or exhibits from more than one section or part of this manual. Checklists to assist the applicant in determining the completeness of an application are included in this manual at the end of the Exhibits section.

Interested applicants may also obtain other application manuals from the FDOT District Office in their service area (see Appendix), including the: Section 5310, Elderly and Persons with Disabilities Program; Section 5311(f), Intercity Bus Services Program; Section 5316, Job Access and Reverse Commute; and, Section 5317, New Freedom.

The latest Federal Transit Administration Circular on the Section 5311 Program can be downloaded from [http://www.dot.state.fl.us/transit/Pages/FTA\\_Section\\_5311\\_Circular.pdf](http://www.dot.state.fl.us/transit/Pages/FTA_Section_5311_Circular.pdf).

## General Program Information / Requirements

**Program Administration.** The Federal government allocates funds by formula to the State of Florida each year for the Section 5311 Program. FDOT has been designated by the Governor to administer the program. As the program administrator, FDOT is responsible for the following services. At its discretion, FDOT may contract with a service provider to perform these services.

1. announcement of funding availability;
2. selection of projects for funding according to approved selection criteria;
3. development and processing of agreements;
4. oversight of recipient procurement actions;
5. oversight of recipient compliance with state and Federal requirements; and
6. provision of technical assistance regarding the Section 5311 Program.

Authorizing legislation for the program is shown in the Glossary of this manual under “authorizing Federal and State Legislation.”

The Federal goal of the program is to enhance the access of people in non-urbanized areas to health care, shopping, education, employment, public services and recreation; to assist in the maintenance, development, improvement and use of public transportation systems in rural; to encourage and facilitate the most efficient use of all Federal funds used to provide passenger transportation in non-urbanized areas through the coordination of programs and services; and, to provide for the participation of private transportation providers in non-urbanized areas. Wherever possible Section 5311 services should be coordinated with Section 5316 (JARC) and Section 5317 (New Freedom) services.

In Florida, program funds shall be used to support local transportation services which act to maximize the passenger carrying capacity of surface transportation facilities. Services for the transportation disadvantaged should play a significant part under this program. All recipients of funds shall provide their non-prioritization service plan to the District to ensure access to the general public.

**Application Deadlines.** Application deadlines vary from district to district but usually fall between December and February each year. When received, FDOT District Offices evaluate applications within their respective districts and, thereafter, submit a Program of Projects (POP) to the FDOT Central Office.

The Central Office compiles POPs from the various districts and submits a statewide grant application for Federal assistance to the Federal Transit Administration (FTA) by April 1 of each year. The statewide application is, usually, approved by FTA by July 1. The Florida Legislature also approves the general appropriation for the State’s current year budget by July 1. Once Federal approval is received and the State budget finalized, District Offices may make grant awards. (See “Grant Award Process” below.)

**Threshold Criteria.** Threshold criteria are the minimum legal eligibility requirements. Applications must be for eligible services, eligible service areas, eligible recipients, eligible expenses, and provide evidence of local matching funds. Applicants must also ensure compliance with a number of other conditions placed on grant recipients including, but not limited to, coordination of transit services, civil rights preservation, compliance with safety and drug free work place regulations, drug and alcohol testing of safety-sensitive employees, competitive procurement of goods and services bought with grant funds, and references to the Federal Transit Administration’s Master Agreement (<http://www.fta.dot.gov/documents/17-Master.pdf>).

**Eligible Recipients.** Eligible recipients of Section 5311 Grants include political subdivisions of the State of Florida and agencies thereof; Indian Tribes; and private non-profit agencies designated as Community Transportation Coordinators (CTC) in accordance with Chapter 427, Florida Statutes. Private-for-profit CTCs and private-non-profit agencies who are not CTCs may receive funds through contractual arrangements with eligible recipients.

**Eligible Expenses for Section 5311 Operating Assistance (Part B).** Eligible expenses include administrative, management, and operations costs directly related to public transportation services in non-urbanized areas LESS operating revenue. Operating revenue (see Glossary) includes fares paid by passengers, whether such fares are paid at the time service is provided or via prepaid arrangements such as passes or tokens. The capital costs of providing services are not eligible expenses for Section 5311 Operating Assistance but may be eligible for Section 5311 Capital Assistance or other Federal Capital Assistance.

**Eligible Expenses for Section 5311 Capital Assistance (Part C).** Section 5311 funds may be used for the capital expense of transportation services to the general public in non-urbanized areas. Eligible expenses are limited to buses, vans or other paratransit vehicles (including sedans and station wagons), radios and communications equipment, wheelchair lifts and restraints, vehicle rehabilitation, microcomputer

hardware/software, initial installation costs, vehicle procurement, inspection and acceptance costs, construction or rehabilitation of transit facilities including design, engineering, and land acquisition, and other durable goods such as spare components with unit cost over \$300 and a useful life of more than one year. The cost associated with pre-award and post delivery audits also qualify as eligible expenses.

**Ineligible Expenses.** Expenses for charter service; school bus service; service not open to the general public; service exclusively within an urbanized area, and depreciation expense are not eligible under the Section 5311 Program. Likewise, expenses incurred prior to Federal and State approval of a grant application; expenses incurred prior to the execution of a Joint Participation Agreement, and expenses incurred prior to the Department's approval of plans, specifications, and third party contracts are ineligible.

**Legal Authority and Fiscal & Managerial Capability.** Section 5311 applicants must have the legal authority and fiscal/managerial capability to apply for and manage Section 5311 Grants. Grant recipients are required to maintain adequate financial, maintenance, and operating records and be able to comply with the reporting requirements of the Disadvantaged Business Enterprise (DBE) Program (49 CFR Part 23 "Participation of Minority Business Enterprise in Department of Transportation Programs.")

**Matching funds for Section 5311 Operating Assistance (Part B).** The Section 5311 federal share of eligible operating expenses may not exceed 50%. Some combination of state, local, or private funding sources must be identified and committed to provide the required non-federal share. In FY 2008-09 all matching funds were local. The non-federal share may be cash, or in kind. It may be local, private, state funds, or (up to one half) unrestricted Federal funds. It may not include funds borrowed against the value of capital equipment funded in whole or in part by State and/or Federal sources.

The Section 5311 Program is unique to Federal programs in that it permits up to one half the required match to be derived from other unrestricted Federal funds. Federal funds are unrestricted when a Federal agency permits its funds to match Section 5311. Essentially, all Federal Social Service Programs using transit services are unrestricted; other USDOT Programs are not.

Contract revenue from the provision of transportation services to social service agencies may also be used as local match. In most other Federal programs, such revenues would be treated as program income, not as match.

Non-cash items such as donations of goods or services, volunteered services, or in-kind contributions are eligible to be counted towards the local match only if the value of such is formally documented and supported.

Any funds committed as match to another Federal program may not also be used to match Section 5311 funds.

**Matching funds for Section 5311 Capital Assistance (Part C).** Some combination of state, local, or private funding sources must be identified and committed to provide the required non-federal share. Applicants may not borrow funds to use as match nor may they place liens on Section 5311-funded vehicles or equipment. State funds may support up to 10% of eligible capital costs. The federal share of eligible capital costs shall not exceed 80%.

**Use of Section 5311 funds/vehicles/equipment.** Section 5311 funds/vehicles/equipment may be used for general public transportation services provided in non-urbanized areas on a regular and continuing basis. They may also be used for service provided to non-sponsored transportation disadvantaged persons and to social service clients in non-urbanized areas provided there is no restriction on public use of the service. Service may not be designed exclusively to serve the transportation requirements of social service agencies without regard for the mobility needs of the community as a whole. The need and planned use of the requested vehicles must be detailed in the Proposed Project Description (Exhibit B).

Charter, sightseeing, and exclusive school bus services are not eligible services.

**Services across urbanized/non-urbanized area boundaries.** Applicants providing service across urbanized/non-urbanized area boundaries must develop a method of segregating the costs of services to demonstrate that Section 5311 funds are used primarily for non-urbanized area service. Examples of methods that may be used to allocate costs include:

- where all passenger addresses are known, assume the percentage of those addresses located in non-urbanized areas equals the level of service in non-urbanized areas;
- segregate urbanized and non-urbanized service miles based on route maps, and allocate system-wide costs accordingly; and
- utilize driver logs to segregate service mileage or hours inside and outside the urbanized area, and allocate costs accordingly.

**Americans with Disabilities Act (ADA).** Applicants must comply with the Americans with Disabilities Act, (ADA) of 1990, as amended; Section 504 of the Rehabilitation Act of 1973, as amended; U. S. DOT regulations, Transportation Services for Individuals with Disabilities (ADA)” at 49 CFR Part 37; and FTA regulations, Transportation for Elderly and Handicapped Persons, 49 CFR Part 609.

**Administrative requirements.** Applicants shall supply the appropriate Regional Planning Council (RPC)/local clearinghouse agency (see Appendix) a copy of its application for Federal Assistance. Each applicant shall request the RPC/Clearinghouse to provide a letter of approval of the application to the appropriate FDOT District Office. Copies of correspondence to the RPC/Clearinghouse agency should be contained in the grant application.

Section 5311 projects located in an urbanized area must be listed in the Transportation Improvement Program/Biennial Element (TIP/BE) of the respective urbanized area. Although applications for such projects may be accepted by the FDOT District Office prior to their listing in a TIP/BE, a grant award will not be final for such projects until all administrative requirements are completed, including being listed in the appropriate TIP/BE.

**Planning requirements.** To remain eligible for Section 5311 awards, recurring applicants must submit the TDSP or TDP for their service area to FDOT in a timely manner.

**Audit requirements for Section 5311 Recipients.** Recipients of Section 5311 Operating or Capital Assistance funds via a Joint Participation Agreement (JPA) (see “Grant Award Process” below) who receive \$500,000 or more in funds in a single year from all Federal sources, must comply with the Single Audit Act as described in OMB circular A-133. Recipients of Section 5311-funded vehicles/equipment via FDOT’s contractor (See “Grant Award Process”) need not comply with the Single Audit Act in regard to the value of the vehicles/equipment. All approved applicants for Section 5311 awards who receive less than \$500,000 in funds from Federal sources and/or Section 5311-funded vehicles/equipment through FDOT’s contractor, must sign the Certification of Exemption from the Single Audit Act. Exhibit E-1 is provided in the “Exhibits” section of this manual for that purpose.

FTA, the Department, or the Department’s authorized contractor, shall have the authority to conduct audits for the purpose of verifying compliance with the requirements of a Section 5311 award.

**Certifications and assurances.** Applicants must agree to comply with certain Federal requirements by signing the certification and assurances form covered by Exhibits F, G, I, and J of this manual, as appropriate. Compliance items in Exhibit F apply to all applicants and include (but are not limited to) regulations pertaining to charter service and school bus service when using FTA-funded vehicles, equipment, and facilities; and FTA

drug and alcohol testing regulations. Exhibit G applies to applicants for capital assistance to purchase non-accessible vehicles. Exhibit I assures compliance with Section 5333(b) of the Federal Transit Act, and applies to all applicants. Exhibit J pertains to Protection of the Environment and applies to applicants seeking grants for facilities. Applicants for Section 5311 Capital Assistance must also sign a certification and assurance to FDOT, as provided in Exhibit H of this manual.

**Grant Award Process for Section 5311 Operating Assistance (Part B).** Grant awards will be made by the respective FDOT District Office to agencies submitting applications approved by FDOT for an award, by entering into a Joint Participation Agreement (JPA) with the agency (grant recipient). The District Office may enter into a multi-year JPA to commit funds for up to five (5) years in one JPA. However, the grant recipient must qualify each year by submitting an annual application for Section 5311 funds, as described in Part A this manual.

In the case of a multi-year JPA, the JPA does not identify the maximum amount of funding available annually for up to five years to the recipient. Each year of the period, the Department will encumber available funding, based on the formula allocation to recipients in each FDOT District, and provide written confirmation to the recipient of any adjustment to the original estimated funding level as a result of changes in Federal appropriations and/or formula allocations.

To notify an applicant (recipient) approved by FDOT for an award, the FDOT District Office will send a “Notice of Grant Award” to the applicant/recipient with instructions to sign and return it to the District Office (see sample notice in the Appendix.) Thereafter, the District Office will issue a JPA to the recipient.

**Grant Award Process for Section 5311 Capital Assistance (Part C).**

Capital Assistance awards will be made by the respective FDOT District Office to agencies submitting applications approved by FDOT for an award, either by 1) issuing a Joint Participation Agreement (JPA) to the recipient; or 2) arranging for vehicle/equipment purchases through a contractor.

To notify an applicant (recipient) approved for an award by FDOT, the FDOT District Office will send a “Notice of Grant Award” to the applicant/recipient with instructions to sign and return it to the District Office (see sample notice in the Appendix.) Thereafter, 1) a JPA will be issued by the District Office to the recipient; or 2) FDOT’s contractor will contact the recipient to arrange for purchase of vehicles/equipment.

## General Instructions on Forms, Certifications, and Exhibits

Each form, exhibit, and certification provides FDOT with information it must have to make required assurances to the Federal government and to make project selections. It is important that each required form, exhibit, and certification be complete and correct. Applicants should be aware that there are criminal sanctions for furnishing false information in order to obtain federal grants (18 U.S.C. 1001).

The **original** application for Operating Assistance, Capital Assistance, or both, should be prepared on white, 8.5 X 11” paper and securely clipped (no binders or dividers, please) and submitted to the appropriate FDOT District Office. The District Office requires at a minimum one (1) original and five (5) additional copies to be submitted. **Application forms, exhibits, and certifications should be arranged in the order listed in the “Checklist(s) for Application Completeness”.** Three separate checklists are provided in this manual at the end of the Exhibits section: one for Operating Assistance; one for Capital Assistance; and, one for both Operating and Capital Assistance. The appropriate checklist should be used to assure the application is complete. Applications that are incomplete, illegible, or unsigned may be rejected.

The **original** application must be accompanied by the required **cover letter** and **two (2) fully-executed Resolution** forms from the applicant’s governing board (see Appendix for sample). The Resolution should authorize 1) submission of the application; 2) signing of the application and certifications/assurances by a designated individual; and 3) acceptance of the grant award by the designated individual.

**All signatures should be in blue ink by the individual designated by the governing board of the applicant agency. Blue ink distinguishes an original signature from a photocopy. Only original signature resolutions, applications, and acceptance of grant awards are acceptable. The five (5) copies of the original application required by the District Office may be photocopies.**

Questions regarding the Section 5311 application process should be directed to the FDOT District Office in the applicant’s service area, as shown in the Appendix of this manual.

#### Grant Application Instructions.

The standard Application for Federal Assistance (Form 424) must be filled out in its entirety for Section 5311 applications, and for the local clearinghouse submission. The standard form is located on the next page of this manual. It can also be found on the Internet in an interactive Adobe format at [http://www.dot.state.fl.us/transit/Pages/Form\\_424.pdf](http://www.dot.state.fl.us/transit/Pages/Form_424.pdf). This form must be used for **ALL** applications.

No pre-application process is used in this program; therefore, all submissions are applications.

**The code assigned to the Section 5311 Program in the Catalog of Federal Domestic Assistance is 20.509. This code should be shown in Section 10 of the form followed by the title: “Nonurbanized Area Formula Program.”**

Executive Order 12372 requires a review of all Federal grants to ensure compliance with the local and state planning process. Therefore, prior to submission of an application to the FDOT District Office, copies of the application must be submitted to the appropriate **Local** Clearinghouse/Regional Planning Council (See Appendix). The appropriate clearinghouse agency should be contacted to determine the number of copies required for local review.

**Approval letters from the local clearinghouse must be submitted to the District Office before a Section 5311 Award can be made.**

**NOTE: Applicants for Section 5311 Assistance should send their applications to the LOCAL CLEARINGHOUSE/REGIONAL PLANNING COUNCIL; NOT TO THE STATE CLEARINGHOUSE.**

**AGENCIES APPLYING ONLY FOR OPERATING ASSISTANCE:** Standard Form 424 should cover only the Operating Assistance being applied for by the applicant.

**AGENCIES APPLYING ONLY FOR CAPITAL ASSISTANCE:** Standard Form 424 should cover only the Capital Assistance being applied for by the applicant.

**AGENCIES APPLYING FOR BOTH OPERATING AND CAPITAL ASSISTANCE:** Standard Form 424 should cover both Operating Assistance and Capital Assistance being applied for by the applicant.

<b>Transportation-Related Operating and Administrative Expenses &amp; Revenues; Grant Request Information</b>	<b>15</b>
<b>Form B-1: Operating &amp; Administrative Expenses and Grant Request Form</b>	<b>17</b>
<b>Form B-2: Operating &amp; Administrative Revenues</b>	<b>18</b>

## PART B

### APPLIES TO ALL APPLICANTS FOR OPERATING ASSISTANCE

#### Transportation-Related Operating and Administrative Expenses & Revenues; Calculation of Grant Request

Information regarding the applicant's transportation-related operating and administrative expenses and revenues must be provided with the application for Operating Assistance. Forms B-1 and B-2, as provided in this manual, should be used for this purpose. Form B-1 provides space for the applicant to show operating and administrative expenses of the service operated/contracted by the applicant. Form B-1 also provides space to calculate a grant request. However, the grant request cannot be completed until Form B-2 is completed. Form B-2 provides space for the applicant to show the sources of revenue proposed to pay for the expenses shown in Form B-1.

The budget line items shown on the forms were originally defined in the Transportation Accounting Consortium's Model Uniform Accounting System for Rural and Specialized Transportation Providers (TAC Manual). The account numbers in parentheses are the object code numbers for these line items in the TAC manual and in FTA National Transit Data Reports (NTD). Definitions for expense and revenue line items are included in the Appendix of this manual.

Applicants should show the transportation-related operating and administrative expenses and revenues of their agency for the proposed project as projected for the year the Section 5311 Grant Award is to be used. For example, the projected expense and revenue budgets for year FY 2012/2013 should be used if Section 5311 Assistance is requested by the applicant for use in FY 2012/2013.

#### INSTRUCTIONS FOR COMPLETING FORM B-1.

Applicants should complete both the "Total Expense" and "FTA Eligible Expense" columns of Form B-1. In completing the form, Community Transportation Coordinators (CTCs) may use expense information from the budget in their most current TDSP. The "Total Expense" column should show all operating and administrative expenses associated with the proposed transportation service. The definitions for each line item code, as provided in the Appendix of this manual, apply. The "FTA Eligible Expense" column should include only those expenses that are eligible under FTA rules for service provided in non-urbanized areas. This means, for example, that expenses for charter service, school bus service, transportation service not open to the general public, service exclusively inside an urbanized area, depreciation expense, and other ineligible expenses would not appear in the "FTA Eligible Expense" column.

After completing the expense columns on Form B-1, applicants should next complete Form B-2 (see instructions below.)

**Note: In completing Form B-1 and B-2, applicants serving both urban and rural areas should use the same mechanism for segregating urban and rural expenses as they do for segregating urban and rural revenues. (See "Services Across Urbanized / Non-urbanized Area Boundaries" shown under "Threshold Criteria" in this manual.)**

## **INSTRUCTIONS FOR COMPLETING FORM B-2.**

Applicants should complete both the “Total Revenue” and “Revenue Used as FTA Match” columns of Form B-2. In completing Form B-2, CTCs may use revenue information from the budget in their most current TDSP. The “Total Revenue” column should show all revenues used to pay for the expenses shown in Form B-1, as noted previously. The definitions for each line item code, as provided in the Appendix of this manual, apply. The “Revenue Used as FTA Match” column separates total revenues from revenues accepted by FTA as match. This includes revenues in object codes 410, 411, 412, and 430. It also includes revenues in object code 413 EXCEPT for any FTA or other USDOT funds. In other words, FTA or other USDOT revenues should be deducted from the amount shown in object code 413 in the “Total Revenue” column, and the balance should be shown in the “Revenue Used as FTA Match” column.

Next, both columns should be totaled and (b) “Total Rural Passenger Fares” (401) and (e) “Grand Total Revenues” transferred to the grant request section of Form B-1.

## **INSTRUCTIONS FOR COMPLETING THE GRANT REQUEST ON FORM B-1.**

To calculate the grant request on Form B-1:

- Enter the total (a) from the FTA Eligible Expense column of Form B-1.
- Enter the rural passenger fare revenue (b) from the first row of Form B-2 (object Code 401- rural revenue).
- Subtract the passenger fare revenue (b) from the FTA Eligible Expense (a) to determine the operating deficit (c).
- Complete the Section 5311 request (d). Applicants may request no more than 50% of the operating deficit. Total revenues may not exceed total costs. Therefore, it may be necessary to adjust the Section 5311 request to an amount less than 50% of the deficit calculated.

#### **Transportation-Related Operating and Administrative Expenses & Revenues**

Information regarding the applicant's transportation-related operating and administrative expenses and revenues must be provided with the application. Forms C-1 and C-2 are included in this manual for that purpose. These forms should provide information about operating and administrative expenses of the vehicles or service operated/provided by the applicant, as described in Exhibits A and B of the application, and information about the sources of revenue used to pay for these expenses.

The budget line items shown on the forms were originally defined in the Transportation Accounting Consortium's Model Uniform Accounting System for Rural and Specialized Transportation Providers (TAC Manual). The account numbers in parentheses are the object code numbers for these line items in the TAC Manual and in FTA National Transit Data Reports (NTD). Definitions for expense and revenue line items are included in the Appendix of this manual.

Applicants should show the transportation-related operating and administrative expenses and revenues of their agency as projected for the year the Section 5311 Grant Award is requested. For example, the projected expense and revenue budgets for year FY 2012/2013 should be used if Section 5311 Assistance is requested by the Agency for use in FY 2012/2013.

#### Current Vehicle and Transportation Equipment Inventory Form

Applicants must complete the “Current Vehicle and Transportation Equipment Inventory” (Form C-3), as shown in this manual. The form must include a current list of all vehicles and equipment used by the applicant to transport individuals, including those bought in previous years with Federal funds; those bought with other than Federal funds; those now on order; and those to be ordered with grant awards made in previous years. All columns of the form must be completed. An asterisk (\*) should be placed next to the model year of vehicles to be replaced with the grant being applied for with this application. Vehicles operated by the applicant’s contractor or lessee should also be identified, and the name of the contractor/lessee shown in Exhibit B of the application.

#### Capital Request.

Applicants must complete the “Capital Request”, Form C-4, provided in this manual. The upper part of the form (vehicle requests) covers vehicles; the lower (equipment requests), covers other capital equipment such as radios, computer software, computer hardware, etc.

The applicant should not complete the “GMIS Code” on the form but should provide enough information about the desired vehicle(s)/equipment to enable FDOT to complete the Code in accordance with FTA requirements.

**NOTE: In the case of vehicles, applicants should be sure to indicate whether the new vehicle is to replace (R) an older vehicle or expand (E) the fleet by buying a new vehicle. The length of the vehicle, the number of passenger seats & wheelchair positions, lift or ramp, and the type of fuel is also important because this affects the cost (applicants will be required to pay the difference if diesel vehicles are requested). The make of the vehicle should not be shown on the form.**

Applicants should refer to “What’s on the Market”, located in the Appendix, to identify the most appropriate vehicle type for its needs, and the estimated cost. The appropriate FDOT District Office or the Center for Urban Transportation Research (see “What’s on the Market”) may be contacted for assistance.

Eligible expenses are limited to buses, vans or other paratransit vehicles (including sedans and station wagons), radios and communications equipment, wheelchair lifts and restraints, vehicle rehabilitation, microcomputer hardware/software, initial installation costs, vehicle procurement, inspection and acceptance costs, construction or rehabilitation of transit facilities including design, engineering, and land acquisition, and other durable goods such as spare components with unit cost over \$300 and a useful life of more than one year. The cost associated with pre-award and post delivery audits also qualify as eligible expenses.

Private for-profit agencies may receive funds through contractual arrangements with eligible recipients. Services may not be designed exclusively to serve the transportation requirements of social service agencies without regard for the mobility needs of the community as a whole. The non-prioritization service plan must be submitted to the District Office. Charter, sightseeing, and exclusive school bus services are not eligible services. Since the goal of Section 5311 is to enhance access of people living in non-urbanized areas to activities, Section 5311 projects may include the transportation of non-urbanized area residents to and from urbanized areas.
